Abhinav Dinesh Srivatsa

Programming for Data Science Lab

Digital Assignment – VI

Code

```
library(maps)
library(ggplot2)

india <- map_data("world", region = "india")

ggplot() +
  geom_polygon(data = india, aes(x = long, y = lat, group = group),
               color = "black", fill = "lightblue") +
  coord_fixed(1.3) +
  labs(title = "Map of India") +
  theme_void()
```

Output

```
> library(maps)
> library(ggplot2)
> india <- map_data("world", region = "india")
> ggplot() +
+   geom_polygon(data = india, aes(x = long, y = lat, group = group),
+                color = "black", fill = "lightblue") +
+   coord_fixed(1.3) +
+   labs(title = "Map of India") +
+   theme_void()
```
